EXPERIENCE

Freelance Web Developer

Jun 2024 – July 2024

Priti Agri Farms

Gandhidham

- Developed a responsive business website from scratch using Next.js, ShadCN UI, and Tailwind CSS, featuring a product showcase and individual product pages.
- Integrated an email service for the contact form, enabling inquiries about each product efficiently; optimized for SEO and integrated Google Analytics for tracking.
- Implemented advanced performance optimizations, including fast page load times, lazy loading, and code splitting, Next.js App Router.
- Deployed the website on Vercel, ensuring seamless accessibility and performance.

PROJECTS

Discuss-It | *MERN Stack, Socket.io, Tailwind CSS, Cloundinary, Zustand*

- Developed a real-time chat application using the MERN stack and Socket.io, enabling seamless group chats and 1-to-1 private messaging.
- Implemented friend request functionality, along with profile photo updates, group management, and auto-assigned unique avatars based on gender and name.
- Integrated Cloundinary for efficient image storage, allowing users to update profile photos and share images within chats.

Hotel Booking Website | *React.js, Node.js, MongoDB, Express.js, Razorpay*

- Developed a full-stack booking website, allowing users to create accounts, search and book rooms, and make payments using Razorpay.
- Implemented features such as user authentication, account management, and a comprehensive search functionality for finding available rooms.
- Built an admin dashboard for managing bookings, users, and rooms, providing comprehensive tools for administrative tasks.
- Added a review feature for rooms, enhancing user engagement and feedback.
