EXPERIENCE

Freelance Web Developer

Jun 2024 – July 2024

Priti Agri Farms

Gandhidham

- Developed a responsive business website from scratch using Next.js, ShadCN UI, and Tailwind CSS, featuring a product showcase and individual product pages.
- Integrated an email service for the contact form, enabling inquiries about each product efficiently; optimized for SEO and integrated Google Analytics for tracking.
- Implemented advanced performance optimizations, including fast page load times, lazy loading, and code splitting, Next.js App Router.
- Deployed the website on Vercel, ensuring seamless accessibility and performance.

PROJECTS

Issue Board | *Next.js, React, Next-Auth, Prisma, PostgreSQL, Typescript*

[Github](#) [Live](#)

- Engineered a comprehensive full-stack issue tracking system with **GitHub OAuth** integration, providing secure user authentication and seamless access control for efficient project management and collaboration.
- Implemented advanced **real-time markdown previews** for issue descriptions, significantly enhancing content creation and editing processes while improving overall user productivity and engagement.
- Developed robust **user management features**, including intuitive teammate issue assignment and streamlined deletion processes, facilitating efficient team collaboration and project organization.
- Leveraged the power of **Next.js** and **TypeScript** to create a highly performant and type-safe application with server-side rendering, ensuring optimal load times and a smooth user experience.

Discuss-It | *MERN Stack, Socket.io, Tailwind CSS, Cloudinary, Zustand*

[Github](#) [Live](#)

- Architected and implemented a real-time chat application using the **MERN stack** and **Socket.io**, enabling instant messaging capabilities.
- Designed a unique user onboarding experience with **gender-based auto-generated avatars**, boosting personalization and user engagement from the start.
- Implemented dynamic group chat functionality and private messaging features, **friend request management** system, enhancing user interactions.
- Seamlessly integrated **Cloudinary** services for optimized image storage and sharing within chat conversations, improving media handling efficiency.

Hotel Booking Website | *React.js, Node.js, MongoDB, Express.js, Razorpay*

[Github](#) [Live](#)

- Developed a comprehensive full-stack hotel booking platform featuring seamless **Razorpay integration** for secure and efficient online payment processing, enhancing user trust and transaction reliability.
- Designed and implemented a **admin dashboard**, providing powerful tools for efficient management of bookings, user accounts, and room inventory, streamlining administrative tasks and improving overall system efficiency.
- Implemented robust user authentication mechanisms, ensuring enhanced security and personalized user experiences throughout the booking process.
- Integrated an interactive room review system, facilitating valuable user feedback collection.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, C++

Technologies: Next.js, React.js, Zustand, Express.js, PostgreSQL, MongoDB, Node.js, Tailwind CSS, Bootstrap

Developer Tools: VS Code, Git/GitHub, Postman

EDUCATION

DNV International Education Academy

Gandhidham

Bachelor of Computer Application, CGPA: 6.92

2021 – 2024

Modern School

Gandhidham

Class 12 - Commerce

2020 – 2021
